AXION® MSR
HAWS INTEGRATED®
HAWS® SERVICES

AXION MSR: YOUR MEDICALLY SUPERIOR RESPONSE®
AXION MSR is the only eyewash flow designed duplicating the methodology recommended and used by medical professionals.
- Inverted Streams Sweep Contaminants Away from the Interior of the Eye Reducing Further Injury
- Controlled Flow to Both Eyes Simultaneously for Enhanced Vision Control

The AXION MSR showerhead uses a consistent hydrodynamic flow to provide comfortable water pressure, and an integral flow control for a uniform ANSI required 15-minute flush. AXION MSR can solve the 3 most common compliance issues by providing:
- Simultaneous Flow • Non-Injurious Controlled Flow
- Even Eyewash Flow Patterns

HAWS INTEGRATED®: ENGINEERED SOLUTIONS FOR SAFETY
HAWS Integrated designs, builds and manages standard and custom-engineered industrial emergency response systems that provide ANSI compliant tempered water solutions.

HAWS SERVICES®: EMERGENCY RESPONSE MAINTENANCE, REPAIRS and COMPLIANCE
- Reliable Product Commissioning
- Extensive ANSI 358.1 Competent Person Training
- Comprehensive ANSI 358.1 Annual Inspections
- Preventative Maintenance
- Emergency Equipment Product Repairs and Upgrades

AXION MSR - DOCTORS' FIRST CHOICE FOR INJURY REDUCTION

AXION MSR is the only eye/wash duplicating the methodology recommended and used by medical professionals.
- Inverted Streams Sweep Contaminants Away from the Interior of the Eye Reducing Further Injury
- Controlled Flow to Both Eyes Simultaneously for Enhanced Vision Control

Our Risk Rated Response helps identify the appropriate emergency response product based on a facility’s level of risk.
Our Risk Rated Response helps identify the appropriate emergency response product based on a facility’s level of risk.

AXION® MSR
HAWS INTEGRATED®
HAWS® SERVICES

AXION MSR ◆ YOUR MEDICALLY SUPERIOR RESPONSE◆
HAWS MSR is the only eye/wash that duplicates the methodology recommended and used by medical professionals.

• Inverted Streams Sweep Contaminants Away from the Interior of the Eye Reducing Further Injury
• Controlled Flow to Both Eyes Simultaneously for Enhanced Vision Control

The AXION MSR showerhead uses a consistent hydraulic flow to provide comfortable water pressure, and an integral flow control for a uniform ANSI required 15-minute flush.

AXION MSR solves the 3 most common compliance issues by providing:

• Simultaneous Flow ◆ Non-Injurious Controlled Flow
• Even Eyewash Flow Patterns

HAWS INTEGRATED® ◆ ENGINEERED SOLUTIONS FOR SAFETY
HAWS integrates design, build and maintenance into custom-engineered industrial emergency response systems that provide ANSI compliant tempered water solutions.

HAWS SERVICES ◆ EMERGENCY RESPONSE MAINTENANCE, REPAIRS and COMPLIANCE

• Reliable Product Commissioning
• Extensive ANSI Z358.1 Competent Person Training
• Comprehensive ANSI Z358.1 Annual Inspections
• Preventative Maintenance
• Emergency Equipment Product Repairs and Upgrades

INCREASING RISK

RISK EXAMPLES
• Loading Docks
• Warehouses
• Laboratories
• Refineries

INDUSTRY EXAMPLES
• Manufacturing Facilities
• Chemical Plants
• Laboratories
• Refineries

DRENCH SHOWERS
• Exceeds OSHA requirements
• Exposure to the entire body, a partial body, face, or hands
• Remote area design
• Requires an independent water supply

COMPBINATION SHOWERS
• Multi-use products for face, eyes, and/or body
• Variety of materials: metal, plastic, composite
• Design depends on installation type

INDUSTRY EXAMPLES
• Manufacturing
• Chemical Plants

COMPBINATION EYEWASH & SHOWER
• Plumbed, wheeled, or wall mounted
• Multi-use products for eyes, face, and/or body
• Requires an independent water supply

INDUSTRY EXAMPLES
• Manufacturing
• Chemical Plants

LABORATORY EYE/FACE WASHES
• Plumbed, wheeled, or wall mounted
• Multi-use products for eyes, face, and/or body
• Requires an independent water supply

INDUSTRY EXAMPLES
• Manufacturing
• Chemical Plants

RISK EXAMPLES
• Exposure to the entire body
• Full-body exposure to skin irritants
• Chemicals or pathogens

RISK OF ACIDS
• pH of a solution = level of acidity or alkalinity

INDUSTRY EXAMPLES
• Wood Shops
• Painting Shops

RISK OF BASES
• pH of a solution = level of acidity or alkalinity

INDUSTRY EXAMPLES
• Hospitals
• Schools
