DECONTAMINATION PRODUCTS

AXION MSR™
EYE/FACE WASH UNITS
SHOWERS :: COMBINATION UNITS

This catalog represents a snapshot of the emergency response equipment that Haws® offers. For more details and a comprehensive list of products, visit the Haws website at www.hawsco.com.
For more than 100 years, Haws Corporation® has been committed to bringing the highest quality emergency response equipment products to a variety of industries.

As a global manufacturer, we produce a wide array of ANSI compliant decontamination products for use in hospitals and other emergency facilities. From our AXION MSR - Medically Superior Response® eye/face wash stations to our drench showers, Haws is equipped to meet your needs.
AXION MSR™

AXION MSR eye/face wash offers an inverted stream design, sweeping contaminants from the interior of the eye. This direction is consistent with medical irrigation protocols, which by design mitigate the possibility of introducing those hazards into the nasal cavity, causing further injury.

AXION MSR eye/face wash heads are a standard feature on our most popular wall-mounted or pedestal eyewashes, as well as combination shower and eye/face wash products.
The AXION MSR™ drench shower nozzle uses the latest in hydrodynamic principles to spin inlet water and break it into smaller, discrete droplets (A), minimizing the strong physical pressure, making the distribution equal across the entire footprint of the flow (B). This innovative design is featured on all of the shower units providing a comfortable environment so the injured party can comply with the ANSI Z358.1 Standard full 15-minute flush requirement.

Model SP829 (shown at top)
AXION MSR 10-5/8” ABS green plastic drench showerhead. Also available in stainless steel, Model SP829S.

Model 8122
AXION MSR drench shower with hydrodynamic design. Pre-built valve assembly, can be mounted horizontally or vertically from any wall or ceiling. Solid construction from Schedule 40 hot-dipped galvanized steel.

Model 8123
AXION MSR stainless steel showerhead with galvanized pipe and elbow. Vertical or horizontal mount.

Model 8130
AXION MSR drench shower. Corrosion-resistant stainless steel and Schedule 80 PVC showerhead, pipe and elbow, all painted safety green. Vertical or horizontal mount.

Model 8123H
AXION MSR corrosion-resistant stainless steel showerhead, pipe and elbow. Self-regulating shower stream. Horizontal mount from any wall.

Model 8111F
Freeze-protected, wall-mounted drench shower with AXION MSR showerhead.

Model 8111FP
DECONTAMINATION PRODUCTS

Model 8356WCC
Barrier-free, wall-mounted, fully recessed combination shower unit features the AXION MSR stainless steel showerhead with the AXION MSR eye/face wash. Design of the shower allows for flush in the ceiling mounting, or to hang down from the ceiling. Stainless steel drain pan to collect wash waste within cabinet.

Model 8905
AXION MSR wall-mounted eye/face wash head assembly, with inverted flow design. Unit is activated with simple squeeze lever operation. 12-foot yellow recall hose provides an extended coverage area.

Model 8300-8309
Combination drench shower and eye/face wash. Features a round 11" stainless steel bowl, with AXION MSR eye/face wash head and AXION MSR ABS plastic showerhead.

Model 8901RFK
Body spray unit features a green ABS plastic wash head, stay-open squeeze lever valve, eight-foot hose (243.8 cm) and installation kit. Kit includes clamp hook-up, tee clips and fitting for retrofit installation on most combination shower and eyewash units.

Wall-mounted unit also available, Model 8901B.

Model 8904
Counter-mounted AXION MSR eye/face wash and body spray head, with 8 foot (243.8 cm) green hose. Unit is activated with simple squeeze lever operation.

Model 9037
Easy-to-install tyvek yellow privacy curtain, for horizontal emergency drench shower or combination emergency drench shower and eye/face wash units. Shown installed on 8300-8309

8133H Stainless Steel Shower

8905 AXION MSR™ Eye/Face Wash Head Assembly

8356WCDD Barrier-Free Eye/Face Wash and Shower
PRODUCT SPOTLIGHTS

Model 7501FP
Freeze-protected, 9-gallon (34.1 L) portable gravity-fed eyewash. Compact and portable, this model is ideal for remote locations. Gravity supplied for a continuous flow of clean water to injured personnel for a full 15 minutes at .4 gpm (1.5 L), this model is a reliable source for safety. Using a heater, this eyewash can operate in conditions to -30° F (-34° C). Featuring FDA approved high-density green polyethylene tank that easily activates by pulling the yellow activation arm down to the open position. A wide-fill opening with threaded cap permits easy inspection, cleaning and filling.

Model 8605WC
Barrier-free, booth-enclosed combination shower and eye/face wash featuring AXION MSR eye/face wash head and showerhead. Solid reinforced molded fiber glass booth makes for a private free-standing piece of emergency equipment. Reduced installation time as the entire unit is pre-built and fully water/pressure tested. This unit is an ideal solution for unsafe environments where the eyes, face, and body may be exposed to corrosive materials.

Model TWBS.SHE
AXION emergency tempering valve thermostatically mixes hot and cold water to supply tempered water to emergency shower and eyewash fixtures requiring flow up to 74 GPM (280 LPM), ideal for combination units. Redundant anti-scald protection with additional hot shut-off valve providing secondary level of protection. High Cold Water Bypass flow rate of 50 GPM (189 LPM) and 0.0 GPM hot water if cold supply fails. Lead-free brass design CSA certified to ASSE 1071, NSF 61, California Health and Safety Code 116875 (AB 1953-2006) and applicable sections of CSA B125.3.
