

Brita® Hydration Station®

FLOOR-STANDING

MODEL 2500.FS

FEATURES & BENEFITS

DISPENSER

Fast-flow electronic dispensing, lighted spout and dispensing area, with built-in cup dispenser

STAY-COOL

Keeps the filtered water in the cold waterway chilled and ready to serve

ACCU-TEMP

Serves water at the proper temperatures every time

SAFETY

Dual operation safety activation lock function for hot and cold water

SANITARY

SIP® (sanitization-in-place) enhanced sanitation system sanitizes the cold reservoir, waterways and spouts. The system can be programmed to automatically clean daily or to manually clean.

RELIABILITY

Dual mechanical float system to ensure reliability with the water level control valve

STYLING

Appliance styling with smooth black finish, 9.75" dispensing height with hot and cold temperature indicator, perfect for most refillable bottles

FILTRATION

1,500 gallon (5,678 L) capacity, advanced Brita® filtration system for great-tasting water. The 1 micron coconut carbon block filter is certified to reduce chlorine (taste and odor) and lead, and to remove 99.99% of cysts.*

OPTIONS

- ❑ FILTER: Brita® model 6441 (formerly model 2512) is the replacement filter for BRITA® HYDRATION STATION® Model 2500.FS
- ❑ LEAK DETECTION: Detects water leak in distribution lines and shuts off water flowing through valve, part# 0006532549
- ❑ STABILITY BASE: Matching black base to provide additional support, as necessary, part# 0005500891

SPECIFICATIONS

Model 2500.FS BRITA® HYDRATION STATION® is a floor-standing filtered water dispenser constructed of durable HDPE & ABS plastic and features a 1 gallon (3.78 L) cold tank and a 0.317 gallon (1.2 L) hot tank. Flow rate is .55 GPM (2.09 LPM). 115 volt. Overall size: 11.75" W x 15" D x 43.5" H, 29.7 lbs.

APPLICATIONS

With a professional and contemporary design, the BRITA® HYDRATION STATION® Model 2500.FS is a great fit in areas where aesthetics are important to the overall appeal of the room. Not only is the design of this floor-standing water cooler stylish, the self cleaning technology (SIP® Enhanced - sanitization-in-place), the Accu-Temp and Stay-Cool technology make it unique to the market place and ensure great-tasting water at the perfect temperature. Its elevated height and dispensing area make it convenient and easy to fill large and small containers alike. The hot water feature is perfect for coffee, teas, soups and other foods and beverages.

Tested and certified by CSA against NSF/ANSI 42 for the reduction of chlorine (taste and odor) and against NSF/ANSI 53 for the reduction of lead and cysts, NSF/ANSI 372 and California Health and Safety Code 116875 (AB 1953). All components are UL Listed.
