Haws® Introduces New Bottle Fillers to Extensive Hydration Line

[Sparks, Nevada, USA]- Haws® is pleased to announce the launch of multiple new Bottle Fillers to its existing bottle filler and drinking fountain product lines. The 1920 and 3377BF is a versatile, satin-finish bottle filler with push button operated stainless steel valve offering simple installation, compact size and low maintenance. Both units are certified to NSF 61 & 372; Federal Safe Water Drinking Act, CA Health & Safety Code 116875 with 100% lead free waterways and 1GPM (3.78LPM) laminar flow.

Model 1920 is a versatile, **wall-mounted, bottle filler with simple installation** when mounted alone or above a drinking fountain. The universal bottle filler is ideal for indoor or outdoor applications, with various finishes and freeze-resistant options available.

Model 3377BF is a **bottle filler attachment** with pedestal extension **for the 3377 outdoor**, barrier-free, green powder coated pedestal drinking fountain.
