Model 2000S Hydration By Haws™ water dispenser is a semi-recessed, wheelchair accessible bottle or cup filling station constructed of durable ABS plastic and 16-gauge, Type 304 Stainless Steel with a satin finish. It features an electric sensor for touch-free hygienic operation, a 30-second timeout preventing unwanted use, laminar flow to prevent splashing, and a .5 gpm (1.9 L) flow rate for quick fill-up. 2,500 gallon (9464 L) carbon block filter reduces chlorine (taste and odor) and lead, and removes 99.99% of cysts. The mounting frame is of heavy-gauge, galvanized steel. 110 volt, 60Hz, and .1 amp draw when in use. Tailpiece is 1-1/4” (32 mm) O.D. Provision for trap (not included) must be made in or behind wall.

Perfect for either public or private indoor settings, the Hydration By Haws™ water dispenser is a great fit in areas where aesthetics are important to the overall appeal of the architecture. Specifically, this type of semi-recessed, wall-mounted bottle filling station is ideal for office buildings, airports, schools, manufacturing facilities and municipalities. Model 2000S meets the Americans with Disabilities Act when mounted at the correct height. Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, NSF/ANSI Standards 42 & 53, NSF/ANSI 372 and CSA Standard B483.1. Product is compliant to California Health and Safety Code 116875 (AB 1953), California Proposition 65 and the Federal Safe Drinking Water Act. Model 2000S is certified to the Standard for Water Treatment Appliances (UL979).
