

FEATURES & BENEFITS

EXTENDED SHELF LIFE

Extended 24 month shelf life from date of shipment provides a long lasting product.

OPTIONS

For more information, visit www.hawsc.com or call (888) 640-4297.

SPECIFICATIONS

Model 9082-C, bacteriostatic preservative for use in portable eyewash stations. One 8 oz. (236 ml) bottle will preserve 5 to 20 gallons (18.9 to 75.7 L) of potable water for up to four months. Shelf life of 2 years. Twelve bottles per carton. This solution is in compliance with FDA regulations. Temperature storage requirements; store at 68-77° F.

APPLICATIONS

Specifically, this additive is designed to be used with any Haws portable eyewashes, overhead tank showers, and air-charged tempered shower systems where the integrity of the water needs to be preserved.
