ADA Vandal-Resistant Polished Fountain and Bottle Filler w/Mounting System

FEATURES & BENEFITS

CONSTRUCTION

Rugged ADA accessible 18 gauge Type 304 Stainless Steel swirl design bowls, 14 gauge Type 304 Stainless Steel brackets and bottle filler, and vandal-resistant bottom plates provides a long lasting unit with added peace of mind.

BOTTLE FILLER

Vandal-resistant, 14-gauge Type 304 stainless steel bottle filler housing with push button operation and 1 gpm (3.78 L) laminar flow.

FOUNTAIN VALVES

The push-button activated valves have all stainless steel bodies, with chrome plated brass push button assemblies which allow for front access to water stream adjustment, water control cartridge, and water supply strainer replacement without having to go through the bottom plate. Operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).

BUBBLER HEADS

Polished chrome-plated brass bubbler heads with integral laminar flow prevents splashing while providing a superior flow pattern. The integral 1 1/16" basin shank and stainless anti-rotational roll pin add vandal resistance strength. Shielded, angled stream opening provides a steady, sanitary source of drinking water at .45 gpm.

MOUNTING

Galvanized frame and 10 gauge surface plate provide the maximum mounting strength, and allows front access of P-trap and stop

VANDAL-RESISTANT

The bubbler heads, push buttons, round bowls, drain strainers and bottom plates are locked in place, discouraging unwanted vandal tampering.
