## Hygienic Motion Activation

Thoughtfully designed for user peace of mind, the EWC 1210 is the latest hydration solution in the Haws line-up.

- An intuitive LED display together with hands-free activation helps eliminate the spread of germs and makes for a quick, clean, touchless operation.
- An adjustable, elevated platform separates the clean fill area from the used water pour area, while a deeper basin ensures greater spill mitigation for a truly hygienic user experience.

## EWC 1210

## Industry Leading Quality

Every feature on the EWC 1210 is backed by the quality you'd expect from Haws.

- Ease of installation and maintenance makes it ideal for new construction and retrofit projects alike, a complement to any current fountain.
- The stainless steel profile is at once sleek and easy to clean, and every Haws product comes with Haws technical support.

## Sustainability Comes Standard

With smart energy-saving capability standard, industry-leading bottle fill rates and filters, and 100% lead-free waterways, the EWC 1210 is one of the most sustainable offerings in touchless operation.

\*ADA compliant when minimum requirements are met. Please refer to the Americans with Disabilities Act or contact a Haws Technical Service representative to learn more.
