

## FEATURES & BENEFITS

Copper is broadly recognized for its antimicrobial properties across many industries including hospitals. Copper and its alloys, such as brass, bronze and copper-nickel, are inherently antimicrobial. When cleaned regularly, frequently touched surfaces manufactured from uncoated copper alloy materials will continuously kill bacteria that cause infections.

## OPTIONS

For more information, visit  
[www.hawsc.com](http://www.hawsc.com) or call (888) 640-4297.

## SPECIFICATIONS

The Haws model PBA8C copper push button and nut can be used as a hygienic option to the chrome push button supplied with valve 5010SS, is made with 99.9% copper plating, and includes the push button and retaining nut.
