

# HYDRATION POWERED BY HAWS®

## Outdoor Bottle Filler

### Model 3612

ADA-compliant outdoor bottle filler and drinking fountain.

Additional options available to include additional arms, bottle fillers, or dog bowl, along with freeze-resistant options.

## Sensor-Operated Bottle Fillers with Electric Cooler

### Model 1212SFH

Hi-lo, stainless steel, filtered electric water cooler with sensor-operated bottle filler and sensor-operated drinking fountains.

### Model 1211SFH

Single, stainless steel, filtered electric water cooler with sensor-operated bottle filler and sensor-operated drinking fountain.

### Model 1210SF

Standalone, stainless steel, filtered sensor-operated bottle filler with electric cooler.

All models have non-sensor and non-filter options.

# HYDRATION POWERED BY HAWS®

Wall-mount, stand-alone bottle filling stations; or can be mounted above Haws 1001, 1011, 1107L, 1109, 1117L, and 1119 series drinking fountains.

Model 1920: Push button

Model 1920HO: Sensor Operation

Model 1920WHO: White powder-coated, sensor-operated, bottle filler. Push button also available, model 1920W.

Model 1109HO with 1920HO

## Bottle Fillers

Model 2000S

Recessed, wall-mount, ADA, touchless bottle filling station provides fresh, filtered water. Add a personal touch by customizing the logo panel with your company name or logo. Surface wall-mount bottle filling station also available, model 2000SMS.

Model 1900

Bottle filler, stand-alone station or mounted above most Haws drinking fountains, along with most competitors' fountains and water coolers.

Model 3690 Config WM

Wall-mounted, heavy-duty outdoor, ADA accessible bottle filler with matte silver powder-coated finish. The bottle filler offers an all stainless steel valve body that is machined out of solid bar stock.

Model 1922

Wall-mounted stainless steel bottle filler with drip tray drain.

## Antimicrobial Copper Safe-Touch™ Push Button

Available on Haws indoor and outdoor fountains and bottle fillers; new or retrofit options. The perfect economical solution for hydration equipment re-activation at schools and commercial facilities.

## Sensor Upgrade

Model RKHO Series

Electric sensor and solenoid valve retrofit kit with hard-wired or plug-in transformer converts many Haws single fountain model 1920 bottle filler combinations to be operated hands-free.

Models 1900 and 1922 can be ordered as touchless through our Specials Department, contact Customer Service for more information.
