

FEATURES & BENEFITS

CONSTRUCTION

Rugged ADA accessible 18 gauge Type 304 polished stainless steel swirl design bowls, 14 gauge Type 304 polished stainless steel brackets and bottle filler, and vandal-resistant bottom plates provide a long lasting unit with added peace of mind.

BOTTLE FILLER

14-gauge Type 304 stainless steel bottle filler housing with touchless operation and 1 gpm (3.78 L) laminar flow with 30-second obstruction time-out.

VANDAL RESISTANT

The bubbler heads, push button, round bowls, drain strainers and bottom plates are locked in place, discouraging unwanted vandalism, and 30-second obstruction time-out to reduce tampering of sensor.

BUBBLER HEADS

Polished chrome-plated brass bubbler heads with integral laminar flow prevents splashing while providing a superior flow pattern. The integral 11/16" dia. basin shank and stainless anti-rotation roll pin for vandal resistance strength. Shielded, angled stream opening provides a steady source of drinking water at .45 gpm.

FOUNTAIN VALVES

Bottle filler incorporates a touchless sensor operated stainless steel solenoid valve controlled by a transformer, and a pushbutton activated valve which offers the only all stainless-steel valve body that is machined out of solid bar stock and is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer on the fountain.

MOUNTING

3/16" (.47 cm) thick steel mounting plates are larger, thicker and stronger than any other plate in the industry, and shall include the all-thread studs, nuts, and washers which allows for easy installation to a framed wall. (P-trap and stop require rear access)
