ADA Vandal-Resistant Chilled Motion-Activated Dual Fountain and Bottle Filler

# FEATURES & BENEFITS

#### CONSTRUCTION

Rugged ADA accessible 18 gauge Type 304 Stainless Steel swirl design bowls, 14 gauge Type 304 Stainless Steel brackets and bottle filler, and vandal-resistant bottom plates provides a long lasting unit with added peace of mind.

#### **BOTTLE FILLER**

Vandal-resistant, 14-gauge Type 304 stainless steel bottle filler housing with touchless operation and 1 gpm (3.78 L)laminar flow.

#### VANDAL RESISTANT

The bubbler heads, sensors, round bowls, drain strainers and bottom plates are locked in place, discouraging unwanted vandal tampering, and 30-second obstruction time-out to reduce tampering of sensors.

#### **BUBBLER HEADS**

Polished chrome-plated brass bubbler heads with integral laminar flow prevents splashing while providing a superior flow pattern. The integral 11/16" dia. basin shank and stainless anti-rotational roll pin add vandal-resistant strength. Shielded, angled stream opening provides a steady source of drinking water at .45 gpm.

#### FOUNTAIN VALVES

Fountain incorporates a touchless sensor operated stainless steel solenoid valves controlled by a transformer for hands-free operation. A pressure regulator is used to adjust the bubbler flow according to incoming water pressures.

#### MOUNTING

Heavy-duty 16-gauge galvanized steel mounting frame with welded-in heavy-duty 10 gauge mounting plate with pre-punched mounting holes. Further convenience is given to the chiller with the integral fold-out shelf. Also included is an in-wall 3/16" thick steel mounting plate for the bottle filler.
