

FEATURES & BENEFITS

CONSTRUCTION

Fountain is made of 18 gauge and bottle filler, 14 gauge Type 304 stainless steel with a satin finish that resists stains and corrosion, and have soft, rounded corners. Unit features stainless steel satin finish back panels, vandal-resistant bottom plates, and 1-1/4" integral trap.

FREEZE-RESISTANT VALVES

Fully engineered system with the pneumatic-operated, freeze-resistant valves mounted in cabinets that are installed on the inside wall where room temperature does not drop below 50° F (10° C). When valves goes to off position, water left in supply line between valve and bubbler or bottle filler drains back into waste inside cabinet, protecting the unit from freezing, and allowing fountain to function year-round.

MOUNTING

Included: In-wall 3/16" thick steel mounting plates add extra wall support when mounting the fountains and bottle filler.

BUBBLER HEADS

Polished chrome-plated brass bubbler heads with integral basin shank for added strength. Shielded, angled stream opening provides a steady, sanitary source of drinking water at .45 gpm.

VANDAL RESISTANT

The bubbler heads, push buttons, drain strainers and bottom plates are locked in place, discouraging unwanted vandal tampering.

BACK PANELS

Stainless steel back panels helps to protect the wall from inadvertent splashing, and its decorative satin finish increases location visibility.

OPTIONS

- Cane Detection, Floor Mounted: Model SK6, floor mounted cane detection for the Haws Hi-Lo drinking fountains.

SPECIFICATIONS

Model 1119FRP vandal-resistant wall mounted barrier-free freeze-resistant drinking fountain and bottle filler shall include dual 18 gauge Type 304 Stainless Steel satin finish basins, 14 gauge Type 304 Stainless Steel bottle filler bracket, In-wall 3/16" thick steel mounting plates add extra wall support when mounting the fountains and bottle filler, polished chrome-plated brass vandal-resistant bubbler heads, 1 gpm (3.78 L) laminar flow bottle filler, polished chrome-plated brass push-buttons which operate pneumatic valves housed in insulated cabinets, installed on the inside wall where room temperatures do not drop below 50° F (10° C), self-draining water lines protect the unit from freezing, polished chrome-plated brass vandal-resistant waste strainers, stainless steel satin finish back panels, high and low fountain mounting levels, and 1-1/4" O.D. waste pipes. In extreme environments related to heat and cold, product(s) must be protected from damage/exposure due to these extreme conditions.

APPLICATIONS

Perfect for either public or private outdoor settings, Model 1119FRP is a great fit in areas where aesthetics are important to the overall appeal of the architecture. This series is precisely mounted, making it a nice addition to any surrounding. Beautiful satin finish helps to maintain the fountains overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other facilities where the temperature may drop into freezing conditions. Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, faucets and electric water coolers to be lead-free by all known definitions including NSF/ANSI/CAN 61- Section 9, NSF/ANSI/CAN 372, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006), and 116876 (AB 100) "NSF/ANSI/CAN 61: Q ≤ 1".
