

PORTABLE EMERGENCY EYEWASHES

Self-contained emergency eyewash units, also known as portable eyewash units, contain a large volume reservoir of flushing fluid within to provide a continuous 15-minute flow. They are ideal for locations without access to potable water or for locations where eyewash access needs to be moved at a moments notice. Haws® portable eyewash units meet all ANSI requirements for flow rates, stream heights, and pressure for the full flushing duration and are CSA certified to ANSI/ISEA Z358.1-2014.

GRAVITY-FED EYEWASHES

AIR-PRESSURIZED EYEWASHES

7500 GRAVITY-FED, PORTABLE EYEWASH

FDA approved high-density green polyethylene 16-gallon (60.6 L) tank supplies a continuous flow of clean water for a full 15 minutes at .4 GPM (1.5 LPM). Easily activated by pulling the yellow activation arm down to the open position.

7500EB model includes insulated jacket

7501 GRAVITY-FED, COMPACT PORTABLE EYEWASH

Portable 9-gallon (34.1 L) eyewash, polyethylene tank with yellow pull-down activation arm. The unit supplies a continuous flow of water for a full 15 minutes at .4 GPM (1.5 LPM).

7501T model includes insulated jacket

9083 HAWSCLEAN™ PORTABLE EYEWASH CLEANSING STICK

9082 STERILE BACTERIOSTATIC PRESERVATIVE

7601.37 AIR PRESSURIZED, PORTABLE EYEWASH & BODY SPRAY

Portable eyewash and body spray. Features a 37-gallon (140 L) capacity ASME rated stainless steel tank with an air pressure gauge, pressure relief valve, tire-type air fill valve and a 6-foot (182.9 cm) drench hose.

7603 AIR PRESSURIZED, PORTABLE EYEWASH

Portable 15-gallon (57 L) eyewash with stainless steel tank with an air pressure gauge, pressure relief valve, tire-type air fill valve. Provides approximately 10 usable gallons (37.9 liters) of water for effective rinsing. Optional transport cart, Model 9008, and optional drench hose, Model 8901B, available.

7603T model includes Insulated jacket
