

## FEATURES & BENEFITS

### CONSTRUCTION

Rugged ADA accessible 18 gauge Type 304 Stainless Steel swirl design bowl, 14 gauge Type 304 Stainless Steel bracket and bottle filler, and vandal-resistant bottom plates provides a long lasting unit with added peace of mind.

### FOUNTAIN VALVES

Bottle filler incorporates a touchless sensor operated stainless steel solenoid valve controlled by a transformer, and a push-button activated valve which offers the only all stainless-steel valve body that is machined out of solid bar stock and is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer on the fountain.

### BUBBLER HEAD

Polished chrome-plated brass bubbler head with integral laminar flow prevents splashing while providing a superior flow pattern. The integral 11/16" dia. basin shank and stainless anti-rotation roll pin for vandal resistance strength. Shielded, angled stream opening provides a steady, sanitary source of drinking water at .45 gpm.

### VANDAL RESISTANT

The bubbler head, sensor, round bowl, drain strainer and bottom plate are locked in place, discouraging unwanted vandal tampering, and 30-second obstruction time-out to reduce tampering of sensor.

### MOUNTING

3/16" (.47 cm) thick steel mounting plate (sold separately) is larger, thicker and stronger than any other plate in the industry, and shall include the all-thread studs, nuts, and washers which allows for easy installation to a framed wall. (P-trap and stop require rear access).

## OPTIONS

- Support Frame: Model 6800 In-wall floor mounted fixture support legs, welded steel 4-bolt floor flanges, and supplied with 'U' bolts and hardware.
