paint.

number of installation location possibilities.

prevents splashing while providing a superior flow pattern. The  
integral 11/16" dia. basin shank and stainless anti-rotation roll pin for

The push-button activated valve offers the only all stainless steel  
valve body that is machined out of solid bar stock, is fully serviceable  
through the front of the push button assembly offering access to the  
water control cartridge and integral water supply strainer, and with  
front access to the water stream height adjustment for easy  
maintenance without having to remove the valve. Operating pressure  
range of 30 to 90 psi (2.1 to 6.2 bar).
